

Semi-Custom Lighting

from Smart Glass Art by Kathleen Plate

Specifications and Additional Information

2 ft canopies have 44 strands of glass spaced approximately 1.5 inches apart.

4 ft canopies have 72 strands of glass spaced approximately 1.5 inches apart.

All lights will be shipped with 2 extra strands of glass.

Glass strands are flat packed and clip in to canopy (no tools necessary) after canopy is installed.

Canopies are 6 inches wide by 2.75 inches height and flush mount directly to junction box and also screw to ceiling at anchor spots in canopy (anchor hardware not included as needs to be compatible with ceiling material).
Suspension kits mount to junction box at ceiling.

Down lights are LED MR16 bulbs 9W 12V 36 Deg with estimated 45,000 hour life and dimmable.

Glass Pendants are Xenon G4 20 watt bulbs with estimated 2,500 hour life and dimmable.

120 volt wire in at ceiling junction box and converts to 12 volt inside fixture with Fulham pet 120-12-75 transformers.

Recommended dimmers are Lutron or Legrand electronic low voltage dimmer (ELV) dimmer.

Shipping is via UPS.

Please allow 4-6 weeks for delivery.

Rush orders can most likely be accommodated. Fee applies.

*Each chandelier is a handcrafted work of art, with variations in individual glass color, size, and shape expected. Your unique piece will be hand-built from post-consumer bottle glass, ensuring it is a one-of-a-kind original.
Certificate of authenticity included.*
